

GOVERNOR IS IN FAVOR OF LICENSE

Makes Address to Constitutional Convention Favoring License as Best Method of Settling Liquor Traffic Agitation---Does Not Favor Initiative and Referendum but Advocates Good Roads and Home Rule for Cities.

Columbus, Feb. 8.—Governor Harmon's address before the constitutional convention today had the effect of the exploding of a bomb thrown from unexpected quarters. Delegates after the governor had conclusively attacked the initiative and referendum and urged the advocacy of a license system for the liquor traffic, expressed sentiments of amazed opposition or surprised but enthusiastic support. The initiative and referendum supporters asserted the governor had by his remarks and by his connection with the C., H. & D. railroad, put himself out of running for the presidential candidacy. Other delegates said the governor's remarks indicated a sudden consideration and a position which would redeem him to the common people.

Jones of Fayette county, a Republican, characterized the address as a "brave statement of principles, and progressive within the limits of reasonableness."

Wayne B. Wheeler, chairman of the Anti-Saloon League in a public statement issued immediately after the governor's address, resented strongly the favoring of the license proposal and denounced the governor as helping to push the activities for license.

Governor Harmon is not convinced that the initiative and referendum would be an improvement on the present system of government by representatives; he is in favor of permitting municipalities to decide the question of saloons or no saloons for themselves, in favor of state aid in the improvement of the highways and home rule for cities and villages.

The governor today made plain his position to Ohio's fourth constitutional convention and in doing so dropped a bomb into the camp of the initiative and referendum followers, headed by Rev. Herbert S. Bigelow, of Cincinnati, president of the convention.

In declaring his position on the initiative and referendum the governor said that, while he believes the will of the people to be the supreme law: "I am not convinced that the initiative and referendum, applied generally to subjects of legislation would be an improvement on our system of government by representatives, which, while it has its shortcomings like all human institutions, I do not believe has proved a failure."

The governor urged the convention to await the results of a trial of the law passed by the last general assembly authorizing the initiative and referendum in municipalities before making it statewide. If, however, the convention should decide to submit the question to the people the governor urged that it be voted upon as a separate amendment.

In discussing the liquor traffic, Governor Harmon declared that the matter is one for the application of the principle of self government and that a majority of the people of the state favor this method. "The wise course," he said, "is to confine it to the proper persons and subject it to careful regulation."

It ought to be settled, one way or the other, by a provision of the constitution, so as to clear the way for the proper consideration by the General Assembly of other things. To that end, I think the question should be separately submitted to the people, as was done when the present constitution was adopted, whether license shall or shall not be required as a condition to engaging in the traffic in localities where it is allowed.

Calling attention to the fact that the people rejected the work of the constitutional convention of 1873, the governor said regarding the constitution of 1851: "As my experience with the present constitution increases, (Continued on Page 4.)"

BIGELOW CAMPAIGN ATTACKED

**Plan to Bind Delegates
Denounced on Floor
of Convention**

DEFENSE OF PRESIDENT

**Undertaken by Harris of Hamilton,
Who Does Damage to
Cause.**

Columbus, Feb. 8.—When the constitutional convention opened its session today, friends of President Bigelow tried to sidetrack the Halfhill resolution, introduced last night, attacking the Bigelow campaign to bind delegates to his form of the initiative and referendum, but only partly succeeded. Harris of Hamilton county submitted a substitute for the Halfhill resolution, treating the latter as a joke.

Before the substitute could come to a vote Halfhill was recognized by the chair and assailed the methods of Bigelow's plan to bind delegates to his plan, likening them to those that had brought political organizations into disrepute. His plan to bind delegates was denounced as a shame and a disgrace. He called attention to the corrupt practices act as being an index finger for the convention, and read from the act to show that the preliminary work for the initiative and referendum was a parallel to the evil denounced in the act.

Harris of Hamilton defended Bigelow, alleging that Halfhill's charges were "much ado about nothing." He said that at least 80 delegates had been sent to the convention with strict instructions to stand by the initiative and referendum. Of this number it is said 50 had different views as to the form desired, and (Continued on Page 7, Col. 2.)

REP. CLARK CHARGES THE GOVERNMENT SUPPRESSED ALL FACTS ABOUT FLORIDA LAND

Washington, Feb. 8.—Representative Clark of Florida replied hotly in the house today to the statement given out by the department of agriculture which denies his presentation of charges of suppression of facts and undue favor to land purchasing companies as "prejudiced and one-sided."

"I am ready to prove," he said, "that the secretary of agriculture told me that he suppressed a circular letter giving detrimental facts at the instigation of persons engaged in selling lands in the Everglades of Florida, but I looked upon the ven-

erable secretary rather in pity than in blame. But I could not stand to see millions go into the coffers of these land companies while the land was submerged in water and should have been sold by the quarter instead of by the acre. If people want to be humbugged, I am willing to let them be humbugged, but not by the cooperation of a great government department with land speculators."

Don't Be An "Alice-Sit-By-The-Fire"

Sledge Hammer Talk No. 10.

(By Chalmers Lowell Pancoast.)

The Fireside of the Shady Arbor is for the wife and children. Mr. Newark Business and Professional Man, your place is in the ranks of the BOOSTERS.

You can't sit by the fire or loaf in your store or office and expect this town to grow. It isn't natural for things to happen that way.

If you don't want to help the town by becoming a member of the Board of Trade, there's a way out. Here it is.

Hire a substitute to become a member for you.

Newark has got to fight to hold her own with other cities.

If you haven't realized that, you must be blind.

Go out and hire a substitute, and by so doing you become a good booster for the town.

Then you'll be so jealous of your substitute that you'll become a member yourself.

You know and every man in this town knows that the welfare of Newark depends on how much interest its citizens take in pushing the town forward.

What is there in it for you?

Everything you need and ought to have.

A better living, a better home, better business, more money, and A TOWN TO BE PROUD OF.

What more do you want?

You'll never get these things by being an "Alice-Sit-By-The-Fire."

Join the Board of Trade and show you have the interests of Newark at heart—show you are not "DEAD TIMBER." Sign a membership blank tonight.

BOARD OF TRADE MEMBERSHIP IS STILL GROWING

The Board of Trade membership is still growing and it will pass the 700 mark soon. The organization should have not less than 1000 members.

The Board of Trade is the one organization which should appeal to all good citizens and should have their support. It stands for Greater Newark, and has only one object, the growth and improvement of Newark. It is gratifying to note in the list of 675 members published on Wednesday that every section of the city is well represented; every class of business, all professions, all religions are included, men representing every party, extreme liberals, extreme conservatives, capitalists and workmen—all are lined up together as they should for the good of Newark.

The Board of Trade stands for law and for order, for protection of property for improved civic conditions, for clean and honest administration of public affairs, for protection of home industries and mechanics, for growth of the town, for a bigger and a better town in which to live and in which to transact business.

The Board of Trade today has a larger and more enthusiastic membership than ever before in its history but it should be still larger. The whirlwind campaign of Tuesday was remarkably successful. The right men were on the job and they had an attractive proposition to present. The membership committee did its work well.

The public recognized the importance of continuing the Board of Trade work and 90 per cent of those who were solicited said "Yes." Many who were not seen on Tuesday are now sending in their cards. About 30 were received Wednesday. More are coming in today. You are invited to sign a card promising to use your influence toward the improvement and development of this city.

It is worth noting that a representative of Labor is on the board of directors, and that so far one labor organization (the Printers) has elected a man to represent it on the Board. This does not mean that the Board of Trade is catering to Labor any more than it is to Capital.

tal. It simply means that the Board of Trade means a "square deal" and it invited Labor to have a seat on the board of directors, that Labor might know everything that is going on. The Board of Trade has nothing to conceal and it invites inspection of every action it takes.

There is no reason why the laboring men and all other men who are standing for Newark's welfare should not unite with the business men and the professional men in the one proposition—to boost the old town.

And there is more than one way of "boosting." To land a new factory helps a lot, but to protect and promote the interests of those we have, to encourage the patronage of home institutions and home labor is just as important. That sort of work is the best kind of boosting.

Names of members enrolled since the publication of 675 names Wednesday follow.

PROTEST GREET'S ARRIVAL OF CHURCHILL AT BELFAST TODAY

Belfast, Ireland, Feb. 8.—The expected and dreaded strife long threatened by the Ulster province Orangemen, as a protest against today's home rule demonstration, broke out with the arrival of Winston Churchill, first lord of the admiralty, who, with John Redmond, were the chief speakers invited to address the meeting.

An immense gathering was at the railroad station and the arrivals received hoots and jeers from the Orangemen and cheers and plaudits from the thousands of Nationalists. A parade of the former was held and they carried the form of Churchill in effigy. They also had banners on which were printed: "Down With Churchill—No Home Rule!"

For the preservation of the peace, squads of police were stationed at many points, while 5000 troops were

The committee inquired very minutely into the way in which the Tennessee Coal and Railroad Company procured convicts. Mr. Harrison said the company agreed to take the convicts, "old or young, black or white," and work them in the camps. Attorney Reed for the Steel Corporation reiterated that no state convicts were now being worked in Alabama by the company. Chairman Stanley replied that the company officials would be called to testify to that.

Mr. Harrison said that the warden who flogs convict labor camps is employed by the steel company. He said that he had seen a prisoner flogged with a three-plied leather strap and had seen black and blue marks on one convict's back. Failure to do the required tasks was punishable by flogging, solitary confinement and by other methods, he said.

Mr. Harrison said that convict laborers were forced to lie flat on their faces to be flogged.

"Flogged with a thong as big as a wagon trace or tug?" suggested Mr. Stanley.

"By a strap five feet long."

"Ever see this instrument of torture?"

"Yes."

"What's the usual punishment?"

"Fifteen lashes."

Representative Bartlett of Georgia, a member of the committee, remarked that the whole system of convict labor is wrong.

FLOGGING OF PRISONERS

**Working for Steel Corporation in
Alabama Is Receiving Attention of Probers**

Washington, Feb. 8.—James J. Hill, chairman of the board of directors of the Great Northern railroad, is sought by a deputy sergeant-at-arms of the house of representatives with a subpoena from the Stanley Steel Trust investigation committee returnable last Monday. Deputy Sergeant-at-Arms White was dispatched with it to Jekyll Island, Ga., where Mrs. Hill was reported to be sojourning.

Several days ago it was publicly reported that the Stanley committee desired the attendance of Mr. Hill as a witness in the inquiry, but he could not be found. A search for his whereabouts was then instituted.

After White had been enroute to Jekyll Island several hours, word came to the committee that Mr. Hill, instead of going to Jekyll Island, had come to Washington and was visiting at the home of his daughter, Mrs. Samuel Hill. At the Hill home it was said that Mr. Hill was not in Washington.

From another source word was communicated to the headquarters of the committee that Mr. Hill, knowing of the subpoena, had agreed to accept service and would appear next Monday.

The committee seeks information from Mr. Hill regarding the Lake Superior ore fields, the so-called Hill lease of those fields to the United States Steel Corporation, which recently was ordered cancelled in 1915 and the transportation facilities of the Steel Corporation.

Convict labor in the operation of subsidiary companies of the United States Steel Corporation, particularly in Alabama, was taken up by the committee.

Shelby M. Harrison of New York, a magazine writer, testified that he had made an investigation of the conditions. He told of the large number of state and county convicts in the camps in Alabama and of the minor offenses for which some of the men had been convicted and put to work in the mines. Men who walked on the right of way of a railroad, he said, had been arrested for misdemeanor and ordered into convict labor.

The committee inquired very minutely into the way in which the Tennessee Coal and Railroad Company procured convicts. Mr. Harrison said the company agreed to take the convicts, "old or young, black or white," and work them in the camps.

Attorney Reed for the Steel Corporation reiterated that no state convicts were now being worked in Alabama by the company. Chairman Stanley replied that the company officials would be called to testify to that.

HEALTH AND BEAUTY HINTS

BY MRS. MAE MARTIN.

H. N. R. To whiten and beautify the complexion you will find nothing better than a simple, inexpensive lotion made by dissolving 4 ounces of alum in 1/2 pint of water (or hot water) then adding 2 teaspoonfuls of glycerine. This lotion will freshen up and improve any complexion without giving that artificial, powdered look. It does not clog the skin pores like powder and lasts much better. It gives to the skin a smooth, velvety tone and takes away that shiny, sallow look. For treating freckles and skin discolorations generally, spumal lotion is very fine.

L. L. To quickly get rid of that sallow, pimply look on your face, you should take a good system tonic to remove the impurities from your blood which come from lack of exercise and eating too much solid food in the winter. A good, old-fashioned tonic can be made by dissolving an ounce of arsenic in 1/2 pint of alcohol, then adding 1/2 cup of sugar and hot water to make a quart. Take a tablespoonful before meals and you will be surprised how quickly the look of perfect health will come into your face and your energy and ambition be restored.

Nadie. To strengthen your weak eyes and rid them of that dull, over-worked look, put in each eye daily two or three drops of a fine, strengthening tonic, made by dissolving an ounce of arsenic in 1/2 pint of alcohol, then adding 1/2 cup of sugar and hot water to make a quart. Take a tablespoonful before meals and you will be surprised how quickly the look of perfect health will come into your face and your energy and ambition be restored.

Reader: There is one remedy above all others that I take pleasure in recommending for that fat reduction. It is harmless and so very effective in regaining a shapely figure. Just dissolve 4 ounces of paraffin in 1 1/2 pints hot water and take a tablespoonful before meals. This simple remedy will remove your excess fat rapidly without dieting and strenuous exercising, and seems to produce best results in the winter months. Your skin will be firm and free from any flabbiness.

Mrs. T. B. You will not catch cold from shampooing if you use for your shampoo a teaspoonful of cantharid dissolved in a cup of hot water. Rub the hair thoroughly. You should never use soap shampoo, as the alkali dulls and deadens the hair, causing it to become brittle, streaky and split at the ends. Cantharid produces an indescribable softness and flabbiness that one

gets only from a perfect shampoo. It relieves irritation and removes dandruff thoroughly. The hair will be very lustrous and you will have no trouble keeping the short hairs in place.

Mrs. R. C. Nothing is worse than state of greasy beauty creams. Always use fresh-made, greaseless complexion creams and your skin will not be shiny or hair grow on it. By mixing 1/2 pint cold water, 2 teaspoonfuls glycerine and one ounce of amoniac, you have a dependable cream-jelly for cleaning, softening and beautifying the skin. This is excellent for chapped face and hands and keeps the complexion in perfect condition. Use morning and night and you will soon have a charmingly smooth, refined complexion.

James H. Do not despair. You can easily save your hair, but not by using so-called hair tonics that have lost their strength. Get at your druggists an ounce of quinine and 1/2 pint of alcohol; mix these with 1/2 pint of cold water. Apply this tonic to the scalp about twice a week and you will be amazed to see how quickly it rid your scalp of dandruff and irritation, and your hair will grow out. This tonic makes the hair soft, lustrous and beautiful. By preparing your own hair tonic as directed you will have the best hair and scalp remedy known to science.

Anxious. It is not necessary to resort to the pain and expense attending the use of the electric needle. With powdered delatone and water mix enough paste to cover the hairy surface. After letting remain on two or three minutes remove, wash the skin, and the hairs will have vanished. This leaves the skin white, firm and hairless, and while druggists charge a dollar for an original one-ounce package, it never fails to do the work.

Mrs. R. W. If your baby is thin, fretful and does not gain in weight, you are not feeding it the right food. Take a tablespoonful of Dr. Johnson's especially prepared pure barley flour (you can get it from any druggist), mix with cold water to thin, smooth batter, add one pint boiling water, salt to suit; boil five minutes, stirring well, then add half cup milk, stir and feed with nursing bottle. It is advisable to feed in small quantities every two hours when awake. If baby's stomach is weak, dispense with the milk and use only water until the digestive organs become stronger.

"Y" TEAM READY FOR GAME WITH "BUFFALO GERMANS"

With but a few days remaining before the coming of the Buffalo Germans, the champion basketball team of the world, the "Y" team is working hard to acquire a perfection in team work that will enable it to make a good showing against this strong team of professionals.

Particular attention is being given to team and floor work and the team is getting in better form with every night's practice. The strongest lineup possible will be on the floor against the visitors and whether the local team wins or loses, the game will be bitterly contested from start to finish.

The management has made special arrangements to make the game interesting. A limited number of tickets will be sold and the crowd will not be permitted to throng the floor to interfere with the players. Two capable officials have been secured in Lee Moore and Rupp, both Denison basketball stars. These men are thoroughly familiar with the basketball rules and this will insure the best possible results in the conduct of the game.

A few more tickets still remain to be sold and it will be wise for the basketball fans to make sure of being admitted by an early purchase of tickets. The game will be played at Hickey Hall next Tuesday night, the game being called at 8 o'clock. The Champs won another game last

night by defeating the strong Christ Church team at Cincinnati. Following is a part of what this morning's "Enquirer" has to say about the game:

Before one of the largest crowds that ever witnessed a basketball game in Cincinnati, the Christ Church team was overwhelmed by the Buffalo Germans by the score of 61-17. The visitors had the Cincinnati team completely outclassed. They pulled off the game in the first half, and never played that the Cincinnati team never played. Heretofore, the forward of the Buffalo team was the brightest particular star of the evening and the way he put the ball in the basket made the locals green with envy."

TWO MANAGERS NAMED GRIM TO BE IN BASEBALL

It is very evident that there are two baseball managers in the country, who are proud of the name of Jack Grim. One has been signed by Owner W. H. Watkins as manager of the Newark club in the Ohio State league. The other will have charge of the Newport News team in the Virginia league. The following special tells of the second Jack Grim and his new job as minor league manager:

Newport News, Va., February 8. — Jack Grim, the well-known and successful minor league manager, is at present located at Newport News, Va., where he will be in charge of the local team of the Virginia League this season. "Jack" left Cincinnati over three weeks ago, to represent Goldsmith Bros., of Cincinnati, to interest the Virginia league in their official ball and uniforms, which has been favorably discussed for adoption.

Grim has always taken a special interest in the Virginia League, having organized that circuit in the fall of 1909, and was himself owner and manager of the Lynchburg Club for three seasons, and in 1906 had charge of the champion "Shoemakers" of the Hill City. The Shipbuilding City fans are very enthusiastic at the prospect of having organized baseball and preparations are being made to build an up-to-date park close to the city, and Grim will be busy lining up a strong team. He has several promising players already on his list.

Coroner Wiyfarch is engaged this afternoon in holding an inquest in the room of Court Stenographer Cooper relative to the causes leading up to the death of John Chirilo, a foreigner, who was shot on Monday night, January 22, by Todor Dabro, and who died at the Sanitarium on Friday evening, January 26. Coroner Wiyfarch has been unable to hold an inquest for the reason that he could find no witnesses. Wednesday night, however, he found a man who claims to be able to give the story of the shooting, and the inquest is therefore being held.

Dr. Pierce's Favorite Prescription

Is the best of all medicines for the cure of diseases, disorders and weaknesses peculiar to women. It is the only preparation of its kind devised by a regularly graduated physician—an experienced and skilled specialist in the diseases of women.

It is a safe medicine in any condition of the system. THE ONE REMEDY which contains no alcohol and no injurious habit-forming drugs and which creates no craving for such stimulants.

THE ONE REMEDY so good that its makers are not afraid to print its every ingredient on each outside bottle wrapper and attest to the truthfulness of the same under oath.

It is sold by medicine dealers everywhere, and any dealer who hasn't it can get it. Don't take a substitute of unknown composition for this medicine or known composition. No counterfeit is as good as the genuine and the druggist who says something else is "just as good as Dr. Pierce's" is either mistaken or is trying to deceive you for his own selfish benefit. Such a man is not to be trusted. He is trifling with your most priceless possession—your health—may be your life itself. See that you get what you ask for.

PARTICULARS OF GORDON SUICIDE

The Advocate yesterday printed a
brief dispatch from Alleghen, Mich.,
containing an account of the suicide
of John McClung Gordon, a former
Newark man, which occurred several
days ago. Further particulars re-
ceived today are as follows:

"John M. Gordon, a farmer near Al-
leghen, committed suicide with a bar-
ber's knife. The body was found by his
daughter, who was showing a friend
the ruins of a fire which destroyed
Gordon's barn several days before.

"Gordon went into the granary near
the house, scribbled a farewell note to
his family and almost severed his head.
"The loss of his barn with all his
live stock, grain, hay and farming im-
plements with little insurance to pro-
tect him, weighed heavily on his mind
and it is believed that he suffered a
temporary derangement, during which
time he committed the rash act."

The Advocate made an effort to lo-
cate relatives of the dead man here
but without success. Inquiry at the
court house and post office failed to
secure any information regarding his
place of residence before leaving Lek-
ing county.

The Australian government pays
from \$50 to \$75 for the head of ev-
ery dingo killed, so great is the ani-
mal's depredation on sheep.

CLEANS NOSTRILS PREVENTS CATARRH

A Remarkable Remedy. Simple and
Easy to Apply. Costs but a
Trifle.

Those who have tried the various
douches, sprays, and complicated
treatments for Catarrh, Hay Fever,
etc., will appreciate this simple
common sense remedy, Nostriola
Balm.

The Nostriola Treatment, quickly
reaches the diseased membranes,
purifies the nostrils, and arrests the
foul discharge, so that you will not
be constantly wheezing, sneezing,
blowing your nose, and hawking and
spitting.

Best of all, The Nostriola Treat-
ment is easily applied, and it actual-
ly gives more real results for a few
cents than you can get for dollars
spent on many "so-called" cures.

The nostrils and air passages are
the breeding places for the Catarrhal
germ. When the mucous membranes
become sore and inflamed, you catch
cold easily, and each new cold in-
creases the inflammation until you
have Catarrh, Hay Fever, and kind-
red diseases.

Nostriola is a harmless, antiseptic,
cleansing, healing balm, quickly
reaches the trouble, opens the head,
heals and strengthens the linings of
the air passages, and an agreeable
surprise waits all who use it.

The Nostriola Treatment is sim-
ple common-sense practically applied.
Get a 25c tube of your druggist to-
day, and you'll wish you had tried
Nostriola sooner.

AMUSEMENTS

Press Agent Says:

THE GAMBLERS.

"The Gamblers," last season's most
successful serious drama in New
York, which recorded a remarkable
run of over 200 consecutive perform-
ances at Maxine Elliott's Theatre,
comes to the Auditorium on Friday
next, under the management of The
Authors' Producing company, of
which John Cort is president.

In this gripping play by Charles
Klied, author of "The Music Master,"
"The Lion and the Mouse," "The
Third Degree," "Maggie Pepper" and
others of merit, the story arises out of
the operations of one William Em-
erson, who, with several others associ-
ated with him in the banking busi-
ness, uses the money of their deposi-
tors in an effort to fight the several
larger banks which are endeavoring
to crush them. The play is an excel-
lent one.

"THE BEAUTY SPOT."

Announced as one of Broadway's
biggest, brightest, breeziest and best
musical plays, "The Beauty Spot," by
Reginald DeKoven and Joseph Her-
bert, with Frank Deshon as the star,
will play an engagement of one night
and matinee Saturday next at the
Auditorium.

Frank Deshon will be remembered
as starring in "Miss Bob White" and
"The Office Boy."

The play is said to have been em-
bellished with every possible touch
known to the art of staging a musi-
cal comedy. The two scenes are de-
scribed as rich in color and design,
representing a bathing resort in the
South of France and the tropical
gardens adjoining the hotel. A large
chorus is introduced in every form,
from little girls to beautiful grand
dames, and it is claimed that every
face is pretty, every figure a delight,
every dance effect attractive and ev-
ery light effect new. An artist's fete
in the second act introduces golden
chariots drawn by real live ponies, of
the poney ballet and Goldie Joab in
her dance, does some very charming
novelties.

DeKoven's music is too well known
for comment, but in "The Beauty
Spot" it is claimed that he has
grasped the more popular style of
music in a manner which goes far to
prove he has kept the present day de-
mand in mind. Number after number
of the excellent score has that tune-
fulness which lingers in the ear.
"When Cupid Come a Tapping,"
"Creele Days," "A Prince of Berne,"
"The Boulevard Glide," "The Gobbie
Glide," "In a Hammock," "Cutie
Dear," and many other numbers are
songs that are said will be remem-
bered for many a day.

"THE EASIEST WAY."

In "The Easiest Way," which David
Belasco will present at the Auditor-
ium on Monday, matinee and night,
the author does not seek to argue. He
merely presents a given case. He
leaves the audience to draw its own
conclusions. And without any effort
to create sympathy for his heroine, or
to ameliorate her wrongs, or to soiten
even the language, he brazenly
claims his story. And the moral
effect is unquestionable. To the most
callous man in the audience it brings
durest for such a woman as Laura
Murdoch or Elsie St. Clair; to the in-
experienced young man it destroys all
illusions about stage folk of that cal-
iber and the so-called "gay" life; to
women it strikingly and bitterly
points out the inevitable results of
following any but the best way. Is
there any sermon which can more
effectively bring home these points?

THE ORPHEUM.

A variety of musical novelties is
given by Clarence-Keller-Grogan Trio,
who open at the cozy Ardor Theatre
this afternoon. Miss Clarence is a beau-
tiful woman, an accomplished harpist,
has traveled the world over and is
known as one of the foremost players
of that instrument. Mr. Keller has a
remarkable imitative gift, his call of
birds is accurately produced, while
Mr. Grogan, a blind pianist, has both
technique and some clever feats, be-
sides his affliction to recommend his
accomplishments. His sight was de-
stroyed in infancy and all his years
from early boyhood have been devoted
to music. This excellent musical treat
comes to Newark direct from the
Keith circuit and is sure to be one of

the big treats of the season. Gordon
and Norton, two very clever and
charming young ladies have an act
that is pleasing the theatre-goers
everywhere. They introduce a line
of comedy singing and talking that is
guaranteed to make you laugh, and
heartily too, one of the big features
being "Sally Ginger at the Baseball
Game." Provol is sure to please you
with his excellent ventriloquism and
mimic specialty. He is said to be an
expert in his line and is a favorite all
over the circuits. Fred and Mae Wad-
dell are very entertaining in their
singing, dancing and juggling special-
ty, which is up-to-the-minute in every
respect. The Orpheum has a
feature licensed films. Don't forget the
five reels of latest licensed pictures
which the Orpheum is offering every
Sunday, continuous from 1:30 till 10:30
p. m., for 5c.

McINTYRE AT HARTMAN.

Frank McIntyre in his first stellar
venture "Snobs" the seemingly inn-
erly farce comedy which secured a
hit at the Hudson Theatre in New York
comes to the Hartman Theatre, Col-
umbus for an engagement of two
nights and a matinee, commencing Fri-
day, February 16. In "Snobs" Mr. Mc-
Intyre, who is best remembered as the
jolly fat drummer in James Forbes'
comedy, "The Traveling Salesman" has
been metamorphosed into a milk cart
driver, who all of a sudden is ac-
quainted with the fact that he is a
Peer of the English Realm with half a
dozen landed estates and the right to
wear his hat in the presence of the
king. The Milkman immediately at-
tires himself in a milkman's idea of a
decent raiment and descends upon so-
ciety, thereby causing some consterna-
tion and incidentally three acts of gen-
uine fun. Manager Harris, who is
guiding the McIntyre stellar destinies,
has surrounded his latest star with a
splendid support which includes Myrle
Tanner, Elva McDonald, Marie
Fitzgerald, Katherine Stewart, Roy
Fairchild, John Cumberland, Orlando
Daly and Frank Brownlee.

FARMERS' TAXES LESS

C. W. Burkett, editor of The Amer-
ican Agriculturist, one of the pub-
lications of the Orange Judd Company
of New York, which is one of the
leading authorities of the country on
agricultural topics, writes: "Our farm
in Perry county (Ohio) like other
farms in the state, was assessed at a
fairly high rate compared with other
property in the state. At the then
prevailing tax rate our farm like
other farms, was compelled to pay in
taxes a sum larger evidently than
other property. Under the Harmon
tax plan the farm has been assessed
at its true value, but the rate was
less. Our taxes are actually 26 per
cent less on this farm than they were
during all the years past, as long as
I can remember. I do not know who
the appraisers were, but I know their
appraisement represented the real
value, since it is higher than rated in
the settlement of my father's estate.
As there were other heirs at that
time interested, I am confident that
the heirs called for as high an ap-
praisement as they considered the
property to be worth, so that the tax
appraisement which is even higher
than this other appraisement certain-
ly must represent its real value. The
fact that this property is assessed at
its real value and that the taxes are
less than they were under the old
method of taxation is a clear indica-
tion that farm lands have been taxed
out of proportion to their real value,
and that farmers in the state of Ohio
have been paying an unjust portion of
state taxes. This condition existed
until changed by a governor in sym-
pathy with the farmers' side.

"I am confident that this act of
Governor Harmon is appreciated by
every farmer of the state and is the

Terrible Suffering

Eczema All Over Baby's Body.
"When my baby was four months
old his face broke out with eczema,
and at sixteen months of age, his face,
hands and arms were in a dreadful
state. The eczema spread all over his
body. We had to put a mask or cloth
over his face and tie up his hands.
Finally we gave him Hood's Sarsapa-
rilla and in a few months he was en-
tirely cured. Today he is a healthy
boy. Mrs. Inez Lewis, Barine, Maine.
Hood's Sarsapailla cures blood dis-
eases and builds up the system.
Get it today in usual liquid form or
chocolated tablets called Sarsatabs.

GOVERNOR IS IN FAVOR OF LICENSE.

Continued from Page 1.)

the better I like its general design and principal fea-
tures."

The governor placed his approval on the good roads
movement by declaring that existing limitations of state
indebtedness should not be changed except with respect
to building a system of good roads. He also advocated
the abolishing of the board of public works, to be re-
placed by an agency to be created by the general as-
sembly.

best indication I have of his friend-
ship to American farmers and of his
sincere, firm belief that the farmer is
entitled to a square deal. The result
of the working out of the Ohio law
has made me so enthusiastic about
the possibilities, and so convinced am
I that this is a true solution of the
tax question that I am going to ad-
vocate the Ohio plan for all parts of
the country. The tax problem is fun-
damental. The feeling has prevailed
for many years that farmers have
been paying an excessive and unjust
share of them. The protection they
get from the taxes is less than other
interests get, and as indicated by my
own personal experience with Ohio
taxes, farmers have been contribut-
ing from 25 to 30 per cent more taxes
than other interests, when this money
should have been saved to them and
put in their pockets. Had this been
done years ago, as from now on it will
be, it would have been the saving of
millions of dollars to Ohio farmers.

"I say, God bless your Governor!"
He stands out the real champion of
the people. He has fought for a
square deal for the American farmer."

Safe Picture Theatres.

It is evident that State Factory In-
spector Kearns is watchful for the
safety of patrons of moving picture
shows. In his annual report. Just
filed with Governor Harmon, he re-
commended that such establishments
be licensed.

He recited the great danger to the
public in these places of amusement
because of careless or incompetent
operators and says the public might
be better protected if operators were
required to take out license upon ex-
amination. He also says machines
should be manually operated to de-
crease the danger.

In connection with the safety of
patrons he says that much will be
accomplished by the new building
code, under the provisions of which
all new moving picture playhouses
must conform to a prescribed stand-
ard. Under the law he has closed a
dozen show places, he says.

Enactment of additional legislation
to safeguard the lives and safety of
employees in mercantile and industrial
establishments also is recommended.
Fire drills should be made compul-
sory, he says. Assistant Inspector
Lester Redding declares the state
should engage a permanent commis-
sioner to draft codes for all sorts of
buildings as is done in the countries
of Europe with resultant saving in
life and property.

Reports of the year show, says
Mr. Kearns, a large increase in the
number of women employed in all
lines of industrial activity. He be-
lieves they are entitled to protection
from the state and declares the
women's workday law should be ex-
tended to mercantile establishments
and hotels. Enforcement of the law
would be easier, he says.

Child labor, says the inspector, con-
stitutes at the present time the great-
est obstacle to the department. There
is great difficulty in keeping underage
children out of the glass industry on
account of perjury by parents. There
have been 190 prosecutions during the
year.

Mr. Kearns recommends that no
boys under 16 nor girls under 13 be
allowed employment in theatres of
any sort "on account of the allura-
ment incident thereto." Mr. Kearns
has placed his department on a much
higher plane of efficiency than it was
prior to his administration.

WHAT WE LIKE TO KNOW

A GREAT SOLDIER'S
"Eternal peace," said Count von
Moltke, "is not even a beautiful
dream. War is one of God's institu-
tions and a principle of order in the
world. In war the noblest virtues of
men are brought out: Courage and
self-sacrifice, fidelity to duty as
well as love of self-sacrifice. The
soldier offers his life. Without war
the world would decay and be lost in
materialism."
This opinion upon a subject so vital
to the interests of humanity is doubly
impressive when we consider, if but
briefly, the deeds and character of the
remarkable man by whom it was ex-
pressed. In history Count von Moltke
takes high rank among the greatest

PETITIONS PASSED FOR ASHBROOK

(Dennison Paragraph.)

Hon. W. A. Ashbrook is a candi-
date for the Democratic nomination
for Congress from this district for a
fourth term, and petitions for placing
his name on the primary tickets are
now being circulated over the dis-
trict.

Mr. Ashbrook has made a very
credible record in congress, and as
the district is reliably Democratic,
and there is no other aspirant in sight
with sufficient strength to defeat him,
either for the nomination or at the
election, he is quite likely to succeed
himself for another term.

The Newark people have investi-
gated and report that that dog-dyn-
amite story was a baseless fake. Good!
Now the board of trade should get
after the faker, who sends a story
like that out to the press and black-
ens the fame of their town.—Marion

HOW THE PEOPLE ARE SWINDLED

(Youngstown Vindicator.)

A receiver took possession of the
effects of an orchard company up at
Seattle, Wash., and he found in the
offices a safe, three desks and a sup-
ply of stationery. The safe and fur-
niture had been bought on credit and
nothing had been paid on them. The
office rent was due. The question na-
turally arose as to whether the com-
pany really had any assets at all. Yet
in different parts of the United States,
in spite of the vigilance of the post-
office department which is ever on the
lookout, the company had sold its
bonds to the amount of four and a
quarter millions of dollars. Well, it
is usually the case that a hard-work-
ing honest man can't get the help of
a dollar in the way of investment in
any enterprise he may wish to start
with the aid of a little money from
those best acquainted with him in his
home town, but let a sleek well dress-
ed sharper come along and he can
sell them a brick mansion on the
crest of an ocean wave, and then trim
them for fair with some side line.
Think of floating four and a quarter
millions of bonds for a company with
office safe and furniture bought on
tick! As remarked before in these
columns when the high cost of liv-
ing was being considered, the land's
too full of fellows trying to get a
living without work through playing
upon those who do work.

COL. SARGENT ATTENDS ELK REHEARSALS

The city is being lithographed for
the big Elk minstrel which is to be
produced at the Auditorium Mon-
day evening, Feb. 19.
Almost nightly rehearsals are be-
ing conducted and one of the most
faithful attendants is Col. "Bush"
Sargent, the youngest Elk on the ro-
ster. Although the colonel has been
out of his teens for some years, at
the rehearsal Wednesday evening he
did a lively clog step for the bene-
fit of the performers. Col. Sargent

W. B. SARGENT

has charge of the rehearsal rooms,
and it is impossible for any specta-
tor, Elk or otherwise, to obtain ad-
mittance.

Director Rae has worked hard and
faithfully and his efforts are being
crowned with success. He has drill-
ed the members taking part in the
first part until they have all songs,
choruses and marches down pat.
There will be plenty of late song hits
and lively, jingling, jolly and tuneful
music.

From present indications there
will be a full house and ticket pur-
chasers can reserve their seats on
Friday morning, Feb. 16.

CITY WATER FOR NEWARK SCHOOLS MUST BE BOILED

Complaint having been made to
Edward Kibler, president of the
board of education, that the city
water was being used for drinking
purposes at some of the schools of
the city, Mr. Kibler had a confer-
ence with Dr. Knauss, the health
officer on the subject, and asked
his judgment and recommendation
on the matter. The health officer
issued an order forbidding the use
of city water in the public schools
unless the same be boiled, until
further ordered, on account of the
prevalence of typhoid fever in the
city. In compliance with the order,
Mr. Kibler gave instructions to the
janitors of the different school
buildings to shut off the supply of
water for drinking purposes and to
furnish boiled water for that pur-
pose.

MANY VILLAGES ARE INUNDATED

Madrid, Spain, Feb. 8.—Serious
floods are reported from all parts of
Spain and reports are that many riv-
ers and smaller streams have over-
flowed their banks, inundating entire
villages. All communication by wire,
railroad or highway has been cut off,
and this prevents the dispatch of help
to the stricken towns.

districts. The chamber today voted

The Befana Sometimes Brings a Switch

Daddy's Bedtime Story

The Little Italian Children and the Holiday Befana

"THE little Italian children don't have any nice Santa Claus to come down their chimneys and bring them toys," said daddy. Jack and Evelyn looked horrified. "Glad we ain't Italian children," observed Jack. "Of course the Italian children have their Christmas," daddy went on. "If they don't have a Santa Claus they have the Befana. They think that the Befana is much better than a Santa Claus." "Well, daddy, what is the Befana?" asked Evelyn. "The Befana," daddy went on, "is an old lady who comes to every Italian house where there are little ones. In Italy the holiday celebration covers a couple of weeks, and the Befana comes on the eve of Epiphany or Jan. 6. The children are then gathered together by their parents and they stand in a row before the Befana, who asks them how they have behaved in the past year. For the youngsters who have been good she has praise and nice gifts. For the little ones who have been naughty she has a scolding or a switch." "I guess we don't care for the Befana to come here," Jack hastened to say, somewhat anxiously. "Better reform before Christmas then, Jack," advised daddy, with a twinkle in his eye. "You know while Santa Claus doesn't switch bad boys he has a way of overlooking their stockings." "The Italians say that the Befana is an old, old woman, a wonderfully smart housewife who lived in the time of Jesus and the apostles. Her house in Jerusalem was always spotless, for she bustled up and down from dawn until dark scrubbing and scouring and dusting." "The story goes that Jesus passed her house on his way to Calvary. Hot and tired, with the weight of the cross, he stopped to rest for a moment on her spotless doorstep. She looked out and, seeing the tattered, dusty and bleeding man in charge of the officers of the law resting on her clean doorstep, she told him to move on. "Lifting his eyes to her, the man whom she had taken for a common thief or lawbreaker, gave her a look of reproach. 'I go,' he said, 'but you must stay until I return.' "Filled with sorrow for what she had done, she set to work to fill in with good deeds the time that must pass before he should come back. The Befana makes the little children her special charges and around the time of the Saviour's birthday tries to be kind and helpful to them. Italian children both love and fear her."

AND HE LIVES

AT BOOZY JAR

Edward Feldner, who was formerly employed here at the American Bottle Company as a glass blower, but who has been blowing glass at a factory at Beausejour, Manitoba, is well pleased with the country, notwithstanding the rigorous climate.

In a letter to a Newark friend Ed says that he can look out of his hotel window and see bears playing on the hillside, with the mercury 40 degrees below zero. This is not a freak of the eyesight, but is the real thing.

INDICTED FOR ALLEGED ARSON

Mt. Vernon, Feb. 8.—The February grand jury reported yesterday, returning indictments against eleven persons. Among the indictments were ten against five "Centerburg men, Charles Foster, Clarence Foster, Samuel Gould, Frank Foster and Glenn Selby, charging burglary and arson. It is alleged that these men robbed and burned a general store in Centerburg last December.

SAME OLD STORY

OVER AND OVER

Mt. Vernon, Feb. 8.—The February grand jury, which reported yesterday, filed with the court its customary condemnation of the Knox county jail. Every grand jury for the past 15 years has examined and condemned the county jail and recommended a new structure. The proposition to issue bonds for the construction of a jail has been defeated at a half dozen county elections, mainly, it is charged, by the opposition of the rural voting population of the county.

KNOX COUNTY

MAY VOTE ON

PROPOSITION

Mt. Vernon, Feb. 8.—Prosecutor L. T. Cromley will ask a special county election in the near future to decide the proposition of building a county children's home. The county has \$14,000 for this purpose, but the prosecutor holds that the voters must approve of the proposition before the money is expended. The county has been without a children's home for five years and is in sore need of such an institution.

"No difference of opinion as to that with us," interjected Attorney Reed, for the Steel Corporation, "and we are getting out of it as soon as possible."

Judge Gary Explains

Burning of Papers

New York, Feb. 8.—Judge Elbert H. Gary, chairman of the United States Steel Corporation, gave out a statement last night in explanation of the charge made by the government that certain evidence used in the prosecution of the so-called Jackson wire pools and needed to support the government's suit to dissolve the corporation, had been destroyed.

Judge Gary says that the evidence, a trunk full of old papers that had been before the federal grand jury in New York and returned after the indictments in the wire pool investigation had been disposed of, were ordered destroyed by Frank Baugh, vice president of the American Steel and Wire Company, who supposed that all the prosecutions growing out of the wire pools were at an end and that the papers were no longer needed for any purpose.

He expresses his regret that the government "thought it necessary or desirable" to bring its injunction suit restraining the corporation or its subsidiaries from destroying evidence.
